On-Page SEO

GEO

Links

Usability

Performance

INSIGHTS

- The website has several SEO issues that need improvement. On-Page SEO is good, but optimizing HTML tags, title tags, image alt text, and page speed can further improve website performance.
- GEO (Generative Engine Optimization) is not fully optimized. AI-friendly content and structured content can improve visibility in AI-powered search results.
- URL structure can be improved by using short, readable, and SEO-friendly URLs.
- The website should optimize Core Web Vitals, improve usability, and fix technical SEO issues to achieve better rankings and user experience.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

WEBSITE AUTHORITY

Moz Domain Authority	Moz Page Authority	Semrush Authority Score	Total Backlinks
21	39	37	4K
Quality Backlinks	% Quality Backlinks	DoFollow Backlinks	NoFollow Backlinks
216	5%	0%	100%
Spam Score	Moz Trust	SEO Score	Domain Age
1%	4	41%	-

INSIGHTS

- The current Domain Authority Score is 21
- The current Page Authority Score is 39
- The current Quality Backlinks of the Domain: 5%
- The current spam score of the domain is 1%
- Total backlinks of the domain: 4k

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: Website SEO Checker

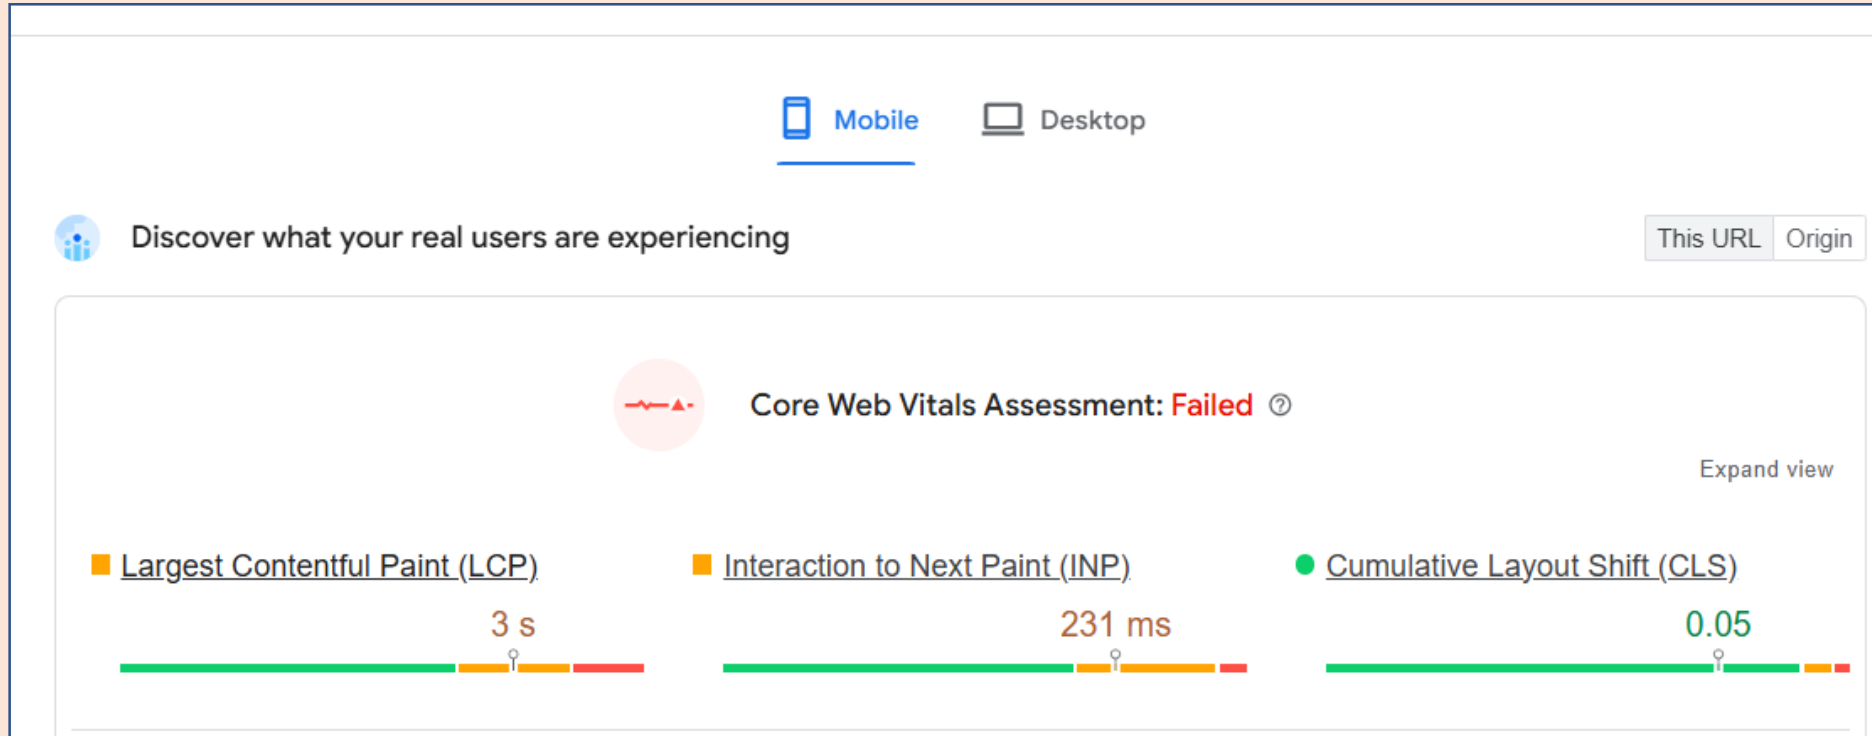

INSIGHTS

- The Website is mobile-responsive, and the layout adapts well across different devices.
- The site does not pass Google's Core Web Vitals assessment; performance optimization is needed.
- Optimizing Images, caching and overall page speed can improve Core Web Vitals, user experience and SEO performance.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: SEOptimer

PAGE SPEED CHECK IN MOBILE

The 3 main metrics to passed core web vital is :

1. **LCP(largest contentful paint):**
 - Measures loading performance.
 - Good: <2.5 sec / =2.5 sec
2. **INP (Interaction to Next Paint)**
 - Measures Responsiveness
 - Good: <200 ms/ =200ms
3. **CLS (Cumulative Layout Shift)**
 - Measures visual stability
 - Good: <0.1/=0.1

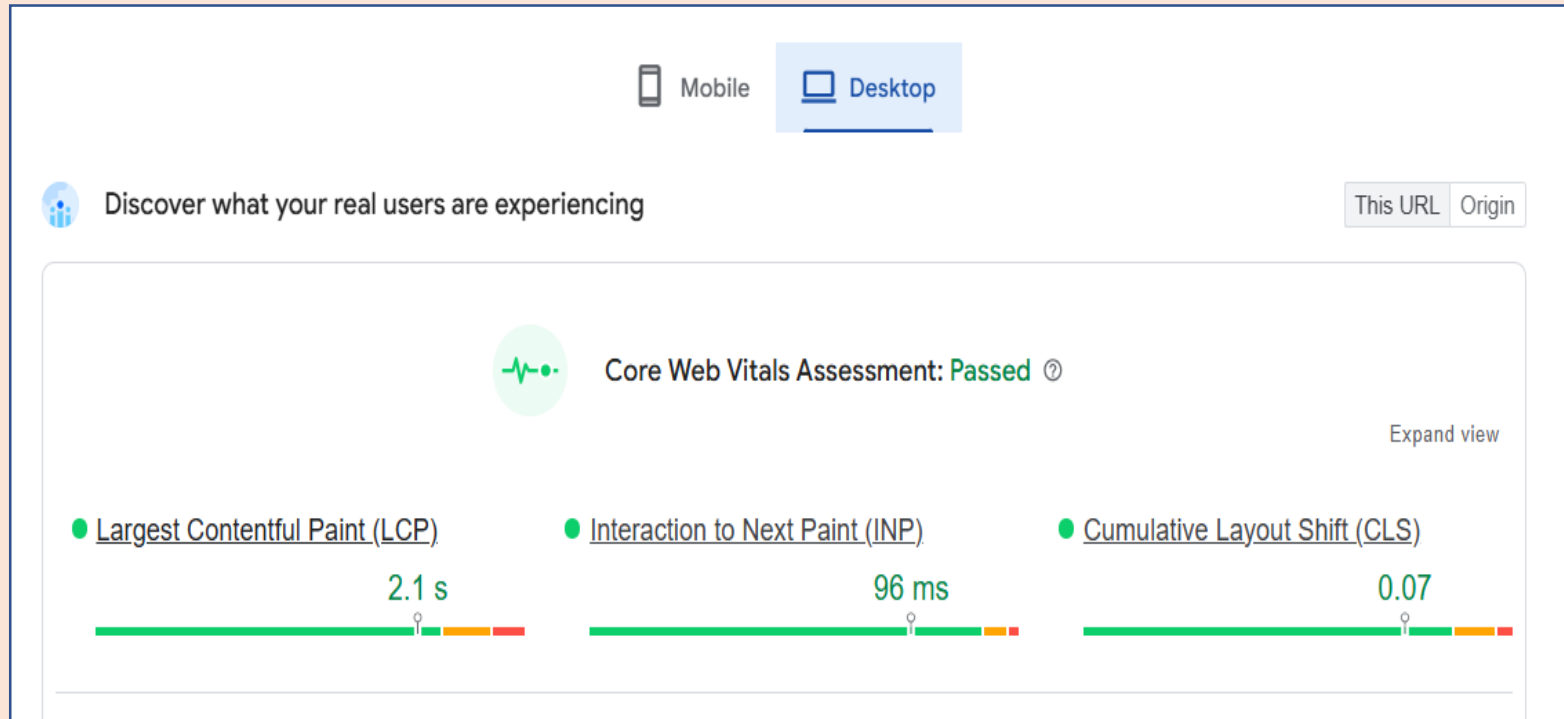

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: PageSpeed Insights

INSIGHTS

- Here LCP is 3 sec, INP is 231ms, so both do not maintained the metrics. So the site did not pass Core Web Vitals.

PAGE SPEED CHECK IN DESKTOP

INSIGHTS

Core Web Vitals: Passed – Overall website performance meets Google's recommended standards.

LCP: 2.1s – Main content loads quickly and provides a good user experience.

INP: 96ms – Website responds very quickly to user interactions.

CLS: 0.07 – Page layout remains stable with minimal unexpected movement.

Overall: Good desktop performance with fast loading, responsive interactions, and stable page layout.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

WEBSITE TRAFFIC ANALYSIS

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

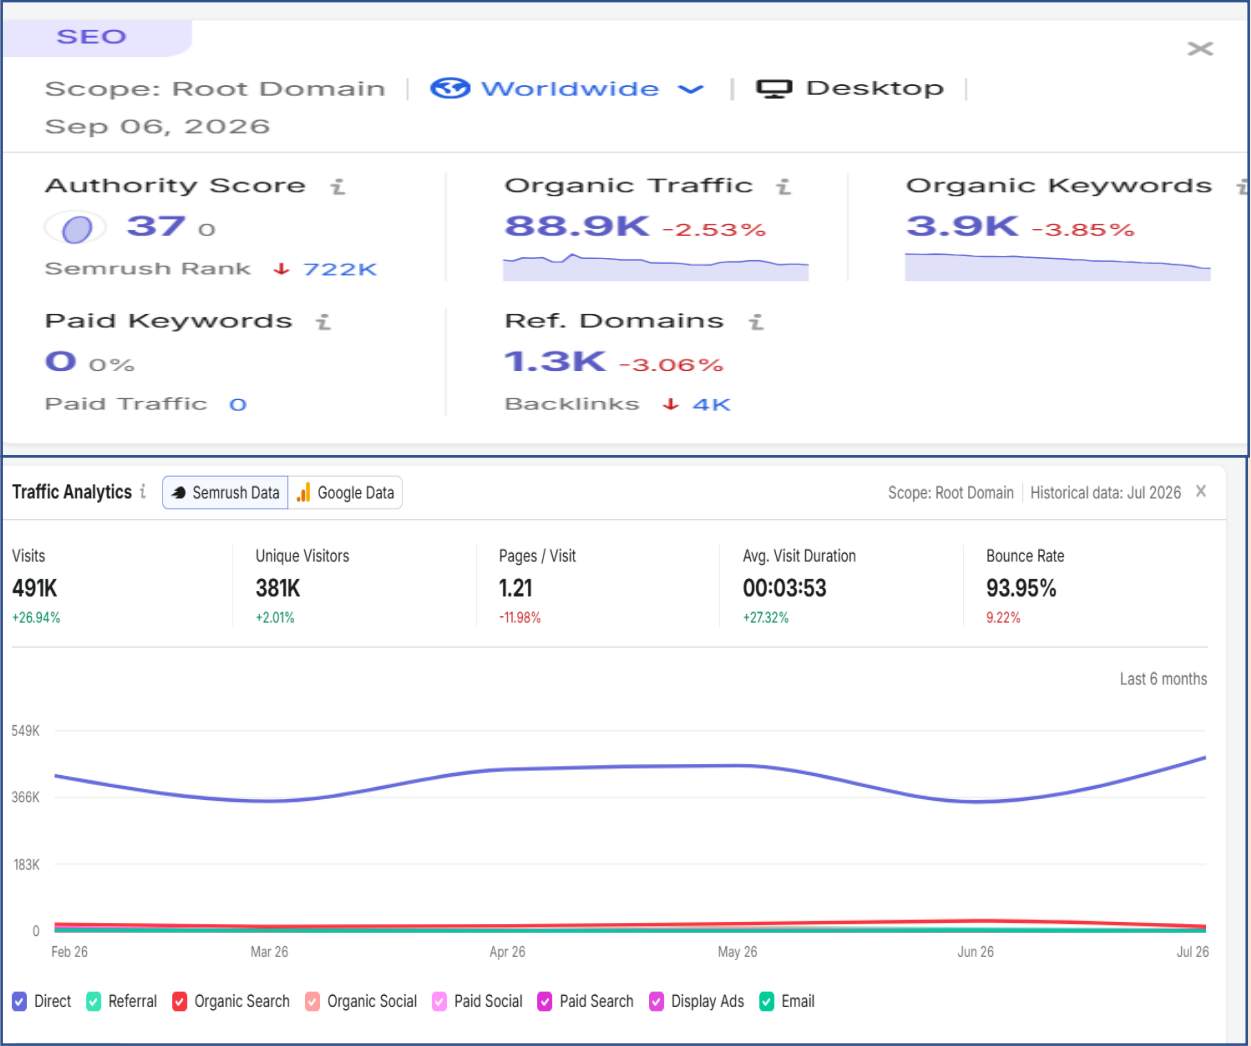

Source: Similarweb

INSIGHTS

- **Strong Website Reach:** The website generated 300.2K total visits, indicating strong online visibility.
- **Global Visibility:** Sweet Karam Coffee holds a Global Rank of 121,116, reflecting its position among websites worldwide.
- **Country Presence:** The website ranks 8,764 nationally, showing a measurable presence within its target market.
- **Engagement Opportunity:** With a 51.83% bounce rate, there is an opportunity to improve landing-page experience and visitor retention.
- **Healthy Browsing Depth:** Visitors view an average of 4.51 pages per visit, suggesting good interest in the website content.

ORGANIC TRAFFIC ANALYSIS

SWEET KARAM COFFEE

Insights

- The website gets around 88.9K organic visits, which shows that it is getting good traffic from search engines.
- There are around 3.9K organic keywords helping people find the website through Google.
- The Authority Score is 37, so there is still scope to improve the website’s SEO strength.
- Organic traffic and keywords have slightly decreased, so improving website content and keyword targeting can help increase organic traffic.
- The website has 1.3K referring domains, which shows that other websites are linking to it.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: Semrush

KEYWORD CONSISTENCY

Individual Keywords					
KEYWORD	TITLE	META DESCRIPTION TAG	HEADINGS TAGS	PAGE FREQUENCY	
cart	×	×	×	25	
add	×	×	✓	24	
special	×	×	×	6	
festive	×	×	✓	6	
laddu	×	×	✓	6	
new	×	×	✓	5	
jaggery	×	×	✓	5	
sweet	✓	×	✓	5	

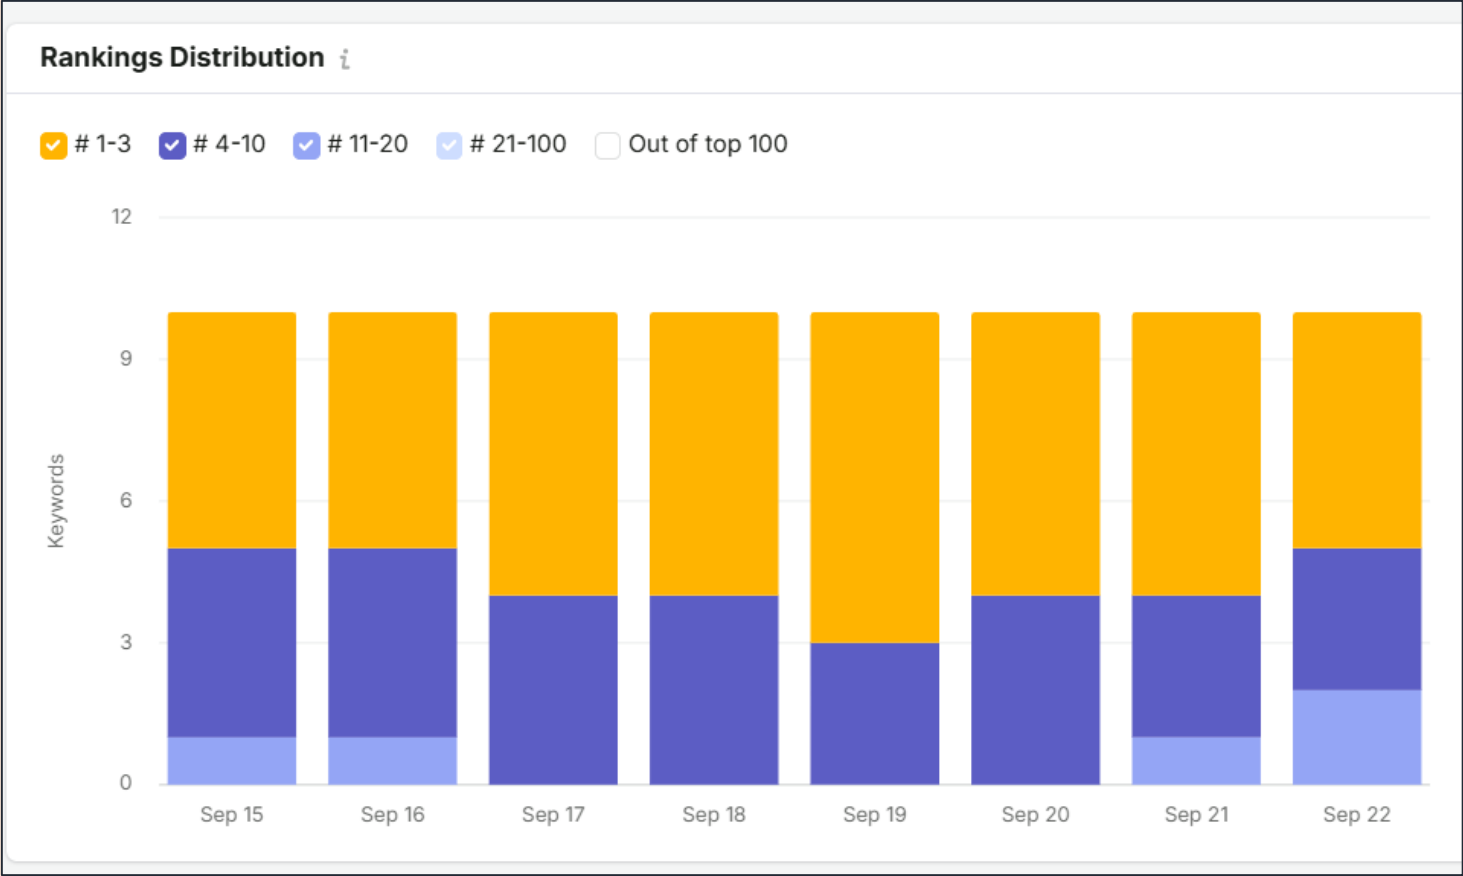

Insights

This indicates that Page’s main keywords are not distributed well across important HTML tags. Page content should be focused around particular keywords we are likely to rank for. Ideally, these keywords should also be distributed across tags such as the title, meta and header tags.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: SEOptimer

ORGANIC KEYWORD ANALYSIS

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.
Source: SEMrush

INSIGHTS

The website is ranking for around 10 keywords during the shown period.

A good number of keywords are ranking in the top 10 positions, which shows good search visibility.

Some keywords are ranking in positions 11–20, so there is a chance to move them to the first page.

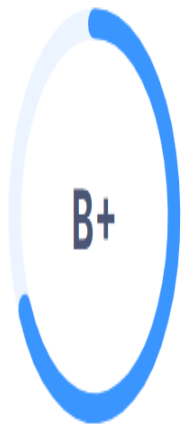

A few keywords are also ranking in the 21–100 range, which need more SEO improvement.

The graph shows that the number of ranking keywords is fairly stable from September 15 to September 22.

Improving the keywords' ranking outside the top 10 can help the website get more organic traffic and visibility.

WEBSITE GEO DISTRIBUTION ANALYSIS

Generative Engine Optimization (GEO)

Your Generative Engine Optimization could be better

Your page has some level positioning for Generative Engine Optimization (GEO). GEO is important to ensure LLMs and AI Search Engines can effectively crawl your content and understand the underlying entity structure. Consider additional enhancements to improve visibility in LLMs as this is becoming a rapidly growing traffic source.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: SEOptimer

Insights

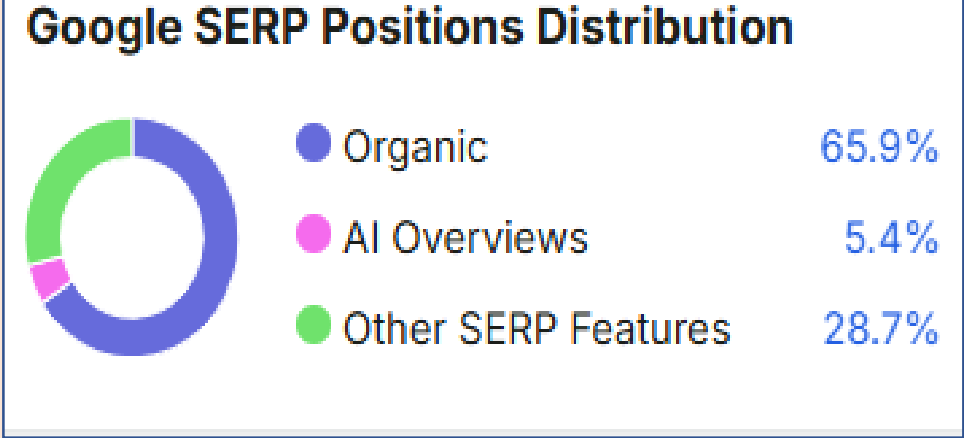

- The website has a good foundation for Generative Engine Optimization.
- Search engines can partially crawl and understand the website's content and entity structure.
- Additional GEO enhancements are required to strengthen visibility across AI-driven search platforms.
- Improve structured content and clear entity relationships to help AI systems understand the brand and offerings.
- GEO is increasingly important as AI-powered search becomes a growing source of website traffic.
- Focus on structured data, authoritative content, FAQs, conversational queries, and entity-based optimization to improve it.

WEBSITE SERP ANALYSIS

 Sweet Karam Coffee
<https://sweetkaramcoffee.in>

Sweet Karam Coffee - Experience South India

India's Only Snacking Brand Delivering 100+ Delicacies without Palm Oil or Preservatives or Maida across the Globe. Join the Good Food Revolution! ❤️

Insights

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: SEOptimer, SEMrush

- Strong brand visibility with a clear brand name.
- SEO-friendly page title highlighting South Indian positioning.
- USP-focused meta description featuring 100+ delicacies and preservative-free products.
- Global reach is clearly communicated.
- Opportunity: Add high-intent keywords to improve CTR and rankings.

IMPROVEMENT RECOMMENDATION

- **TITLE TAG:** The title tag should be between 50 and 60 characters in length, but here the title tag was 43 characters. So it will be increased.
- **KEYWORD CONSISTENCY:** The page's main keywords are not distributed well across the important HTML tags. The page content should be focused around particular keywords you would like to rank for. Ideally, these keywords should also be distributed across tags such as the title, meta and header tags.
- **AMOUNT OF CONTENT:** This page has a low volume of text content, which search engines can interpret as “thin content”. Word count: 888. It has been well researched that higher text content volume are related to better ranking ability in general.
- **IMAGE ALT ATTRIBUTES:** This site has images on the page that are missing Alt Attributes. We found 143 images on the page, and 52 of them are missing the attribute. Image Alt Attributes are an often overlooked and simple way to signal to Search Engines what an image is about and help it rank in image search results.
- **RENDERED CONTENT (LLM READABILITY):** page has a high level of rendering (changes to the HTML). Rendering percentage: 42%. Dynamically rendering a lot of page content risks some important information being missed by LLMs that generally do not read this content.

Please note that the data presented may change over time due to evolving metrics such as performance fluctuations, strategic adjustments, and external market dynamics.

Source: SEOptimer

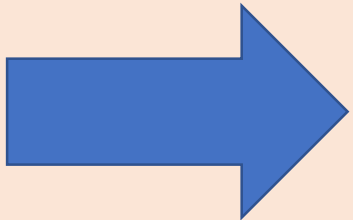

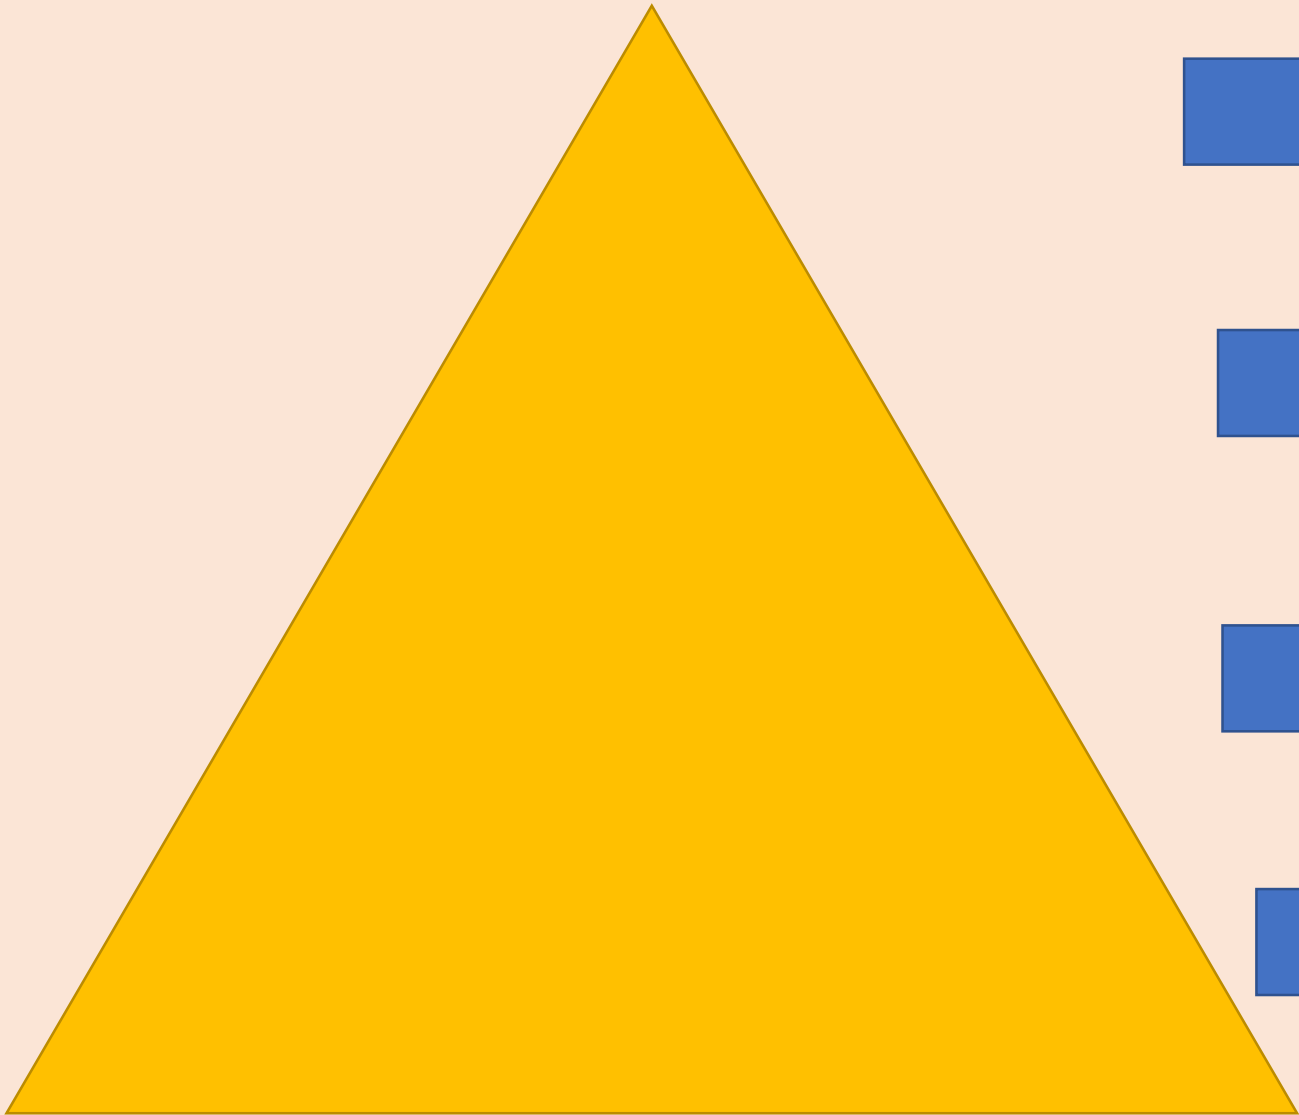

IMPROVEMENT RECOMMENDATION

- **FRIENDLY LINKS:** Some of link URLs do not appear friendly to humans or search engines. We would recommend making URLs as readable as possible by reducing length, file names, code strings and special characters.
- **WEBSITE LOAD SPEED:** Page loads slowly. Page load speed is critical to ensuring good user experience and is becoming a more important ranking factor. Load speed can be impacted by a multitude of factors; however and may need technical resources to investigate.
- **WEBSITE DOWNLOAD SIZE:** Page is full size is quite large, which, regardless of other optimisations, can reduce load speed and impact user experience. A general rule is to keep your page under 5MB in total file size.
- **JAVASCRIPT ERROR:** Page is reporting JavaScript errors during load. This could indicate that some required functionality on the page is failing or scripted may have coding problems
- **FACEBOOK PIXEL:** We have not detected a Facebook Pixel on the page. Add this as soon as possible.
- **LOCAL BUSINESS SCHEMA:** No Local Business Schema detected on the page. Add Local Business Schema.

SUGGESTIVE KEY IMPORTANT AREAS

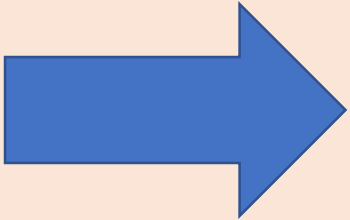

- Enhancing website loading speed and performance is a top priority, particularly for mobile devices, to improve both user experience and SEO rankings.
- Significant improvements are needed in on-page SEO elements such as title tags, meta descriptions, H1 tag usage, and keyword placement to strengthen organic visibility.
- The site requires richer and more optimized content on key pages to improve relevance, engagement, and keyword targeting.
- Image optimization (alt attributes, compression, next-gen formats) should be implemented to reduce page weight and improve accessibility.
- The site is responsive; mobile interactivity and usability should be enhanced to lower bounce rates and increase conversions.
- Structured data/schema markup and local SEO enhancements (business address, phone number, geo-targeted keywords) are missing and should be added for better SERP visibility.

4 PILLARS OF SEO

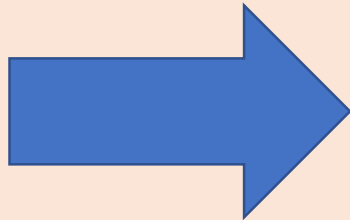

Content creation & enhancement

- Focus on high-quality.
- Valuable content. Integrate relevant.
- Targeted keywords: Maintain consistency through regular updates.

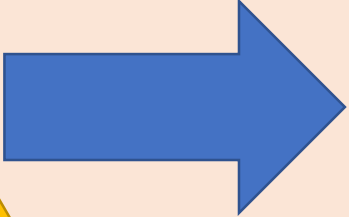

Backlink Strategy

- Build authoritative, high-quality backlinks.
- Target backlinks from niche-relevant sources.
- Ensure a diverse and natural link profile

CRO & User Experience

- Improve website navigation for better usability.
- Optimize page load times for faster access.
- Make sure the site is fully responsive on mobile devices

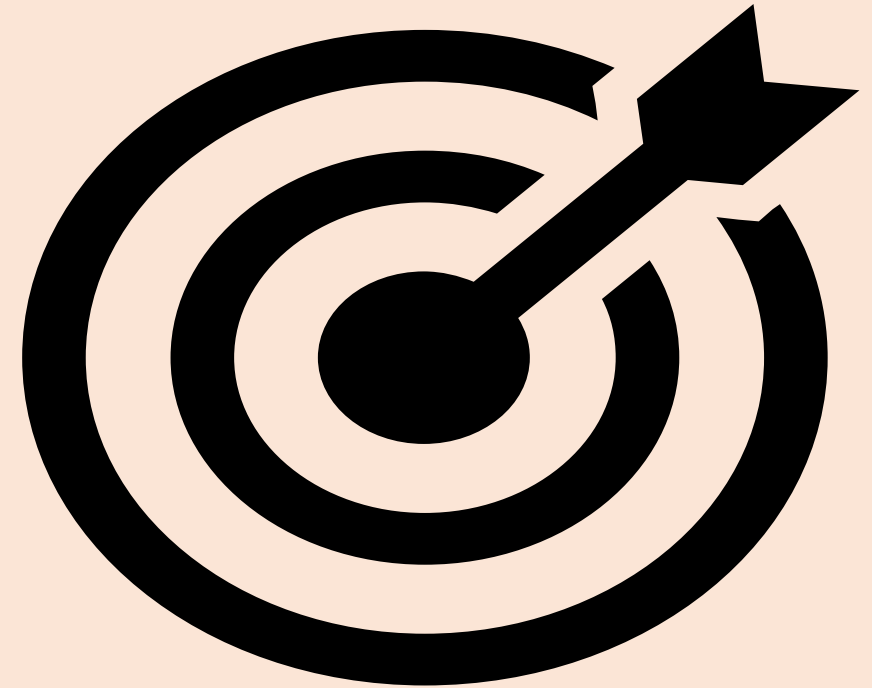

Analytics & Optimization

- Monitor and evaluate traffic sources.
- Refine user journey to boost conversions
- Work on lowering the bounce rate

TARGET LOCATION STRATEGY

- Tier 1 & Tier 2 cities
- South Indian Diaspora Markets
- High online-order potential areas
- High-income & working-professional Zones
- Tamil Nadu main market

TARGET LOCATION EXPANSION STRATEGY

What They're Doing

- Building their presence from Tamil Nadu.
- Reaching customers through online channels.
- Selling traditional South Indian coffee and food products.
- Serving customers beyond their immediate local market.
- Building the brand around traditional taste and South Indian identity.

What can be improved

- Expand city-wise: Create a clear plan for Tier-1 and Tier-2 cities.
- Stronger local targeting: Run location-based ads for high-potential cities.
- Improve online reach: Target customers outside Tamil Nadu through SEO and social media.
- Use customer data: Identify which cities generate the most orders and focus there.
- Build local awareness: Use regional influencers and local campaigns when entering new markets.

TARGET AUDIENCE

South Indian Families

- Families who enjoy traditional sweets, snacks and coffee.
- Buy for everyday use and family occasions.
- Prefer familiar and authentic flavours.

South Indians Living Away From Home

- People who miss traditional South Indian food.
- Looking for familiar tastes from home.
- Customers living across India and abroad.

Young Professionals & Students

- Looking for convenient snacks, coffee and ready-to-use products
- Regular online shoppers
- Prefer easy home delivery

Festive & Gifting Customers

- Buy sweets, snacks and hampers for festivals and celebrations
- Looking for traditional gifting options
- Includes family, wedding and corporate gifting

TARGET AUDIENCE

Traditional Food Lovers

- Enjoy authentic South Indian sweets, snacks and beverages
- Interested in trying different regional products
- Can buy across multiple product categories

Health & Quality Conscious Customers

- Care about ingredients and product quality
- Prefer traditional, homemade-style products
- Willing to pay for better-quality food

Corporate & Bulk Buyers

- Companies buying sweets, snacks and gift hampers
- Mainly during festivals and special occasions
- Opportunity for bulk and repeat orders

TOTAL ADDRESSABLE MARKET FUNNEL

TAM (Total Addressable Market) = The total potential market for packaged snacks and food products in India.

SAM (Serviceable Available Market) = The portion of TAM focused on ethnic snacks, traditional sweets and premium packaged regional foods that Sweet Karam Coffee can realistically serve.

SOM (Serviceable Obtainable Market) = The realistic share of SAM Sweet Karam Coffee can capture within 3–5 years through D2C, retail, digital marketing and geographic expansion.

MARKET CONTEXT

- India has a large and growing market for packaged snacks and traditional foods. Consumers are increasingly buying traditional food products through e-commerce and modern retail. Sweet Karam Coffee already has 5 lakh+ customers, giving the brand a strong base to build on.

TOTAL ADDRESSABLE MARKET (TAM)

₹1,00,000+ crore per year

- This is the larger Indian market for traditional sweets, snacks, coffee and other packaged South Indian food products.
- It includes customers buying these products for everyday consumption, festivals, gifting and special occasions.

SERVICEABLE AVAILABLE MARKET (SAM)

₹15,000–25,000 crore per year

- This is the part of the market that Sweet Karam Coffee can realistically target with its current range of coffee, sweets, snacks, pickles, masalas and other traditional products.
- The opportunity is across India through online sales, retail stores, marketplaces and gifting.

SERVICEABLE OBTAINABLE MARKET (SOM)

₹150–300 crore in 3–5 years

- With stronger marketing, more customers, wider distribution and repeat purchases, Sweet Karam Coffee can aim to capture a small but meaningful share of its target market.
- Growth can come from new customers, repeat orders, product expansion and festive/corporate gifting.

MICRO FUNNEL BREAKDOWN

SWEET KARAM COFFEE

Metric	Example Scenario	Numbers / Assumptions
Existing customer base	Sweet Karam Coffee has already served 5 lakh+ customers across India, giving the brand a strong base to build repeat purchases.	5 lakh+ customers
Reachable audience via digital	Assume the brand can actively reach around 30% of its existing customers through WhatsApp, email, social media and remarketing.	~1.5 lakh customers
Conversion/repeat purchase rate	Suppose 20% of the reachable customers place at least one repeat order during the year.	~30,000 orders
Avg order value (AOV)	Assume an average order value of around ₹600–800, based on the current mix of snacks, sweets, coffee and combo products on the website.	₹700 average

COMPETITOR ANALYSIS

PETTIKADAI

MARKET REACH

Extremely strong online presence focused on traditional Tamil Nadu and South Indian sweets and snacks, with shipping within Tamil Nadu, other states, and internationally.

BRAND PERCEPTION

Positioned on authentic Tamil Nadu village snacks, sweets, nostalgia and traditional recipes.

TARGET KEYWORDS

Traditional Tamil sweets, Tamil snacks online, South Indian snacks, Athirasam, traditional sweets online.

KEY STRENGTH

Strong niche positioning around native Tamil products with a clear online-shopping focus.

KEY WEAKNESS

More concentrated on Tamil/South Indian traditional products, allowing Sweet Karam Coffee to build a broader regional and ingredient-led proposition.

COMPETITOR ANALYSIS

SRI KRISHNA SWEETS

MARKET REACH

Strong South Indian sweets brand with online ordering, pan-India shipping, festive gifting and interstate/bulk orders.

BRAND PERCEPTION

Strongly associated with traditional sweets, especially its signature Mysurpa.

TARGET KEYWORDS

Mysurpa, Mysore Pak, South Indian sweets, Kai Murukku, traditional sweets, festive sweets.

KEY STRENGTH

Strong signature-product positioning around Mysurpa plus a wide range of sweets and savouries.

KEY WEAKNESS

Strong product-led positioning creates an opportunity for Sweet Karam Coffee to differentiate through broader regional snack storytelling and ingredient-focused USPs.

COMPETITOR ANALYSIS

INDIAN SNACKS HOUSE

MARKET REACH

Indian Snacks House mainly reaches customers through its online store and focuses on traditional Indian snacks and sweets.

BRAND PERCEPTION

This brand focuses on traditional tasty Indian snacks.

TARGET KEYWORDS

Indian snacks online, South Indian snacks, traditional snacks, Indian sweets, banana chips, murukku.

KEY STRENGTH

It has a clear focus on traditional snacks and sweets.

KEY WEAKNESS

Its brand identity is less focused on a specific unique benefit, giving Sweet Karam Coffee a chance to highlight its health-conscious products.

COMPETITOR ANALYSIS

WORLD OF MYSOREPAK

MARKET REACH

The brand mainly sells Mysore Pak and other traditional sweets online and reaches customers across India.

BRAND PERCEPTION

It is strongly connected with Mysore Pak and traditional Mysuru sweets.

TARGET KEYWORDS

Mysore Pak online, Mysuru sweets, authentic Mysore Pak, ghee Mysore Pak, traditional sweets.

KEY STRENGTH

Its biggest strength is its strong focus on Mysore Pak.

KEY WEAKNESS

Its product range is more limited compared with Sweet Karam Coffee's wider South Indian range.

COMPETITOR ANALYSIS

DELIGHTS FOOD

MARKET REACH

Delight Foods sells different types of Indian sweets, snacks and regional food products online

BRAND PERCEPTION

It is positioned as a brand for people who want to discover traditional food from different parts of India.

TARGET KEYWORDS

Indian sweets online, Indian snacks online, traditional Indian food, South Indian snacks, regional Indian food.

KEY STRENGTH

It has a wide range of products from different regions.

KEY WEAKNESS

It covers many regions, but it has less focus on South Indian food compared with Sweet Karam Coffee.

COMPETITOR ANALYSIS

NATIVE SPECIAL

MARKET REACH

Native Special sells traditional sweets, snacks and other South Indian products online. It also serves customers outside India.

BRAND PERCEPTION

The brand is known for traditional and regional Tamil food.

TARGET KEYWORDS

Tamil sweets online, South Indian sweets, traditional Tamil snacks, Tirunelveli Halwa, Palkova.

KEY STRENGTH

Its main strengths are its regional products and traditional flavours.

KEY WEAKNESS

It focuses more on products from Tamil Nadu, while Sweet Karam Coffee offers a broader South Indian product range.

ORGANISATION TEAM STRUCTURE

SWEET KARAM COFFEE

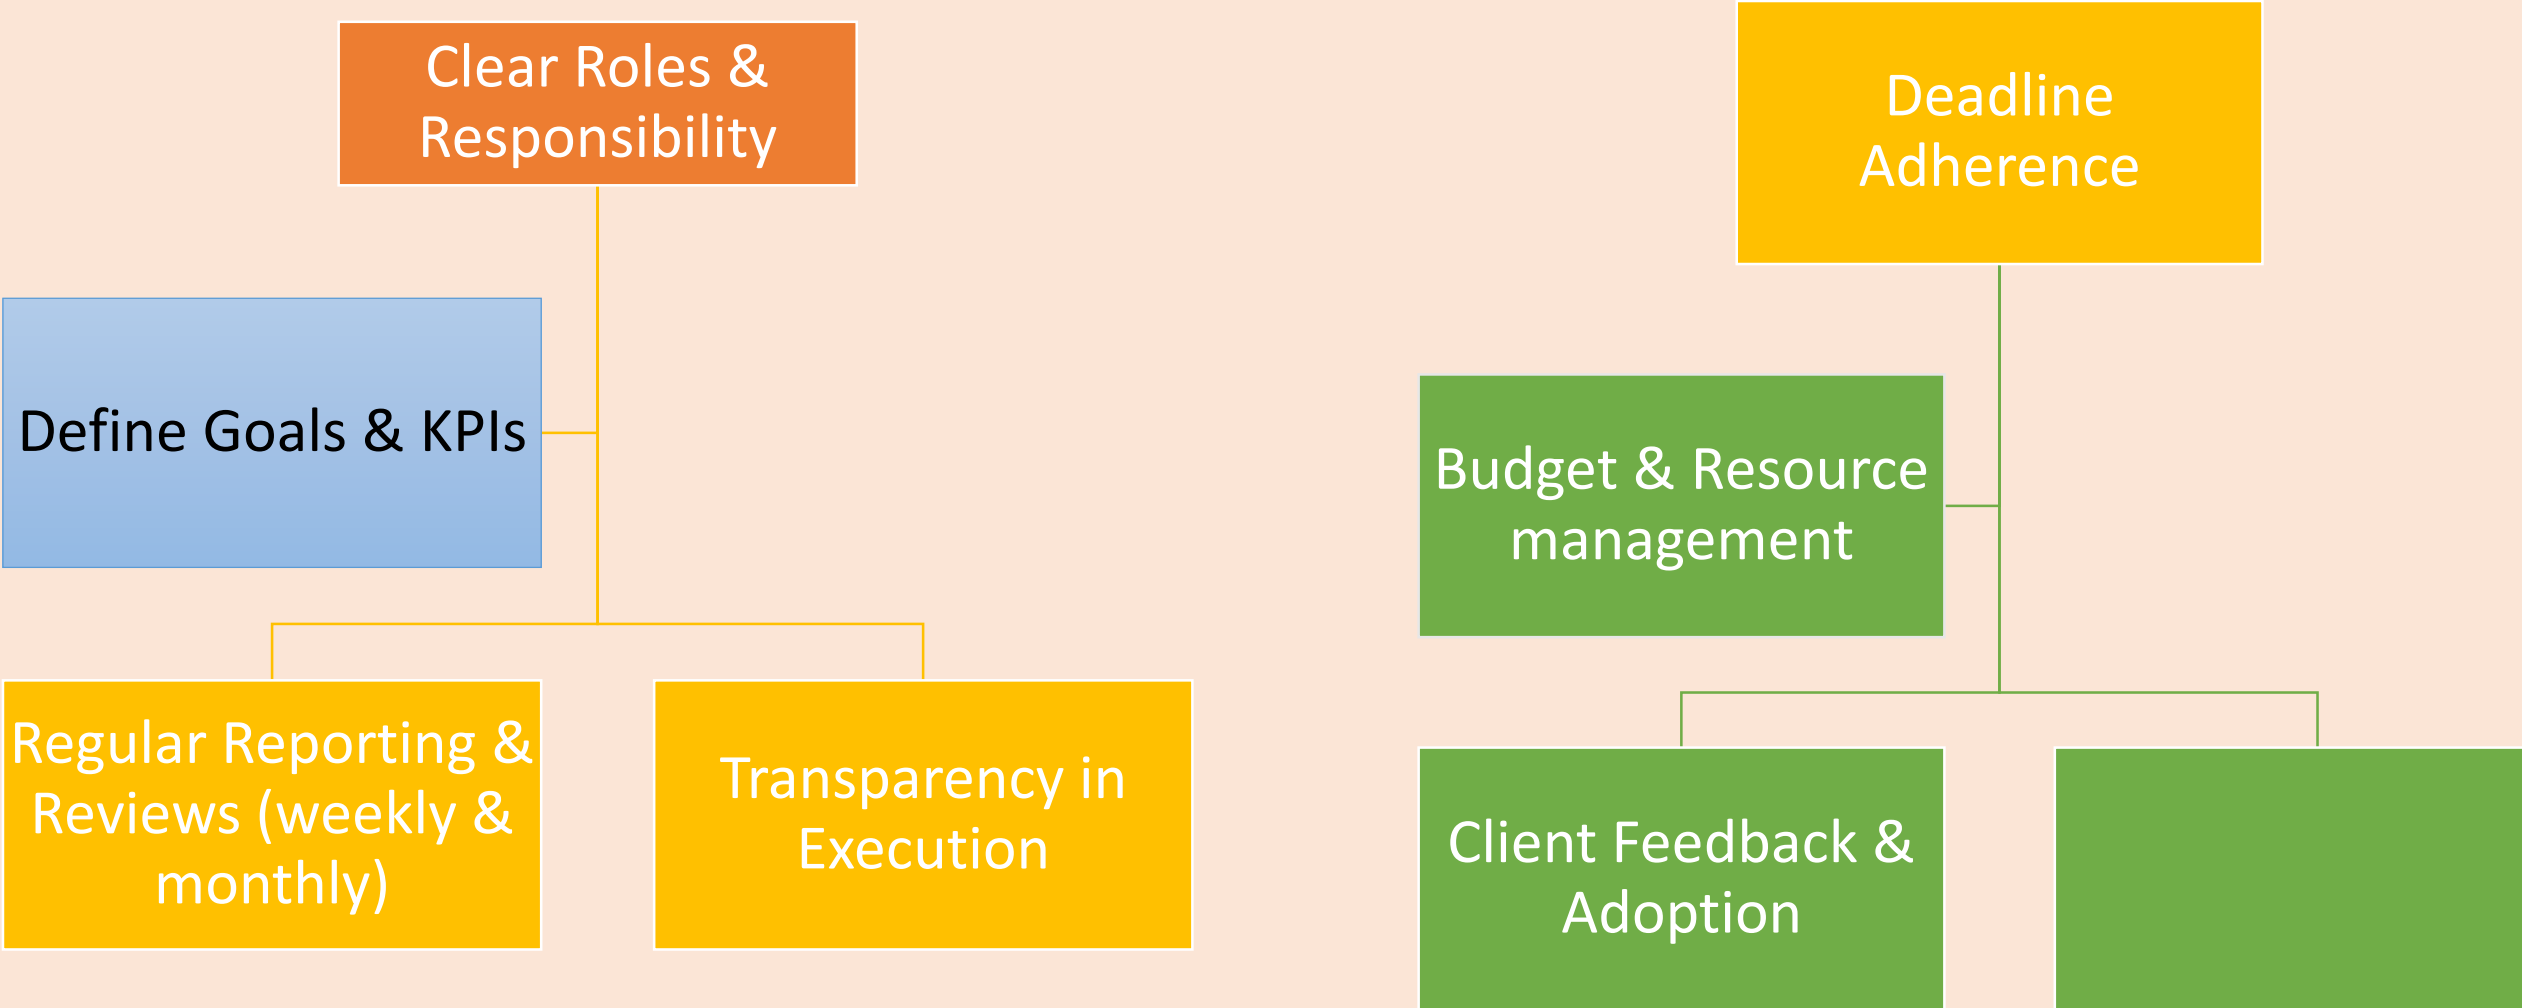

ORGANISATION TEAM STRUCTURE

ACCOUNTABILITY

- Weekly work update to track campaign progress, user engagement, and platform performance.
- Bi-monthly, a detailed strategy meeting to review and refine marketing & user outreach plans — ensuring it is a co-creation process.
- Monthly Review Meetings: Deep-dive into KPIs, keywords, user queries, and content (blogs, recipes, videos) — what's working, what's missing, corrective actions.
- Ensures all promotions are accurate, transparent, user-friendly, and free from misleading claims about products.

ACCOUNTABILITY

ACTIVITIES

- **SEO & Content Marketing** – Improving keywords, website content, blogs and FAQs to increase organic traffic.
- **Google & Meta Ads** – Running targeted ads to reach people interested in South Indian sweets, snacks and filter coffee.
- **Social Media Marketing** – Posting reels, product highlights, customer reviews and festival-related content on Instagram, Facebook and YouTube.
- **Customer Engagement** – Using WhatsApp, email and SMS to share offers, new products and stay connected with customers.
- **Website Improvement** – Improving page speed, landing pages, navigation and call-to-action buttons to make shopping easier.

THANK YOU
